

Town of ELLENBORO Water System

2017 DRINKING WATER QUALITY REPORT

PUBLIC WATER SYSTEM ID # 01-81-038

DEVELOPED March 23, 2018

This annual report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We purchase our water from the Town of Forest City which is treated surface water from the Second Broad River which begins in Marion, NC and flows southeast through Rutherford County.

We invite our customers to learn more about the water treatment process. Tours of the Forest City facility are scheduled and questions regarding water quality can be answered by calling the Forest City Treatment Plant staff at 248 - 5215. Questions regarding water bills should be directed to the Ellenboro Town Hall at 453-8611.

We want our customers to be informed about their water utility. Citizens are welcome to attend regular Town Board meetings on the second Tuesday of each month at 7:00 p.m. Meetings will be held in the board room of Town Hall – 163 Depot Street.

Protection of drinking water is everyone's responsibility. You can help protect your community's drinking water source(s) in several ways: (examples: dispose of chemicals properly; take used motor oil to a recycling center; volunteer in your community to participate in group efforts to protect your source, etc.
